Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/534,384	Applicant(s) GREY ET AL.	
	Examiner Michael J. Feely	Art Unit 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 May 2005.

DETAILED ACTION

Pending Claims

Claims 1-39 are pending.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- **Group I**, claim(s) 1-18, drawn to a composite material/article featuring a specific epoxy resin composition with decorative elements dispersed therein.
- **Group II**, claim(s) 19-26, 32, and 39, drawn to a method of manufacturing a composite material comprising at least the steps of: forming an epoxy resin layer; at least partially curing the epoxy resin layer; adding decorative elements **onto** the at least partially cured epoxy resin layer; forming a second epoxy resin layer over said decorative elements; and curing said second epoxy resin layer.
- **Group III**, claim(s) 27-31, drawn to a method of manufacturing a composite material comprising at least the steps of: forming an epoxy resin layer; adding decorative elements **into** the epoxy resin layer; at least partially curing the epoxy resin layer; forming a second epoxy layer over the first epoxy resin layer; and curing said second epoxy resin layer.
- **Group IV**, claim(s) 33-38, drawn to an epoxy composite material comprising at least: a first epoxy resin layer with decorative elements dispersed therein; and a second epoxy resin layer with decorative elements dispersed therein; wherein the first epoxy resin layer is sufficiently transparent such that the decorative elements in the second epoxy resin layer are visible there-through.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- The specific epoxy resin composition featured in group I is not featured groups II, III, and IV.
- The method of group II is fundamentally different (onto vs. into) than the method of group III. Furthermore, the method of group II would not have produced the composite of group IV.
- The method of group III is fundamentally different (into vs. onto) than the method of group II. Furthermore, the method of group III would not have produced the composite of group IV.
- The composite of group IV would not have been produced by the methods of group II or group III.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Communication

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Feely whose telephone number is 571-272-1086. The examiner can normally be reached on M-F 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Y. Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
